BIZERBA

The Bizerba premium gravity feed slicer sets worldwide standards in terms of hygiene, safety and energy efficiency. Thanks to its intelligent motor control the slicer is highly energy efficient. Extremely powerful in semiautomatic operation.

More information
High performance
with a wide range of
solutions and options.

Product description

Thanks to its ergonomic, inclined carriage design the slicer can also be used for heavy products. The optional servo-supported manual or automatic operation allows fatigue-free operation. Its heart consists of a powerful motor with innovative performance concept. The energy consumption automatically adjusts to the product. Even if heavily used the machine does not heat up. Thus, the sliced products remain fresh longer. The optional Ceraclean® surface is easy to clean and ensures easy gliding of products over the carriage plate. A highlight of the gravity feed slicer is an optional integrated portion scale. The weight is indicated on a touch display by means of which all parameters can be easily controlled.

GSP HD 18° (European version)

Highlights

- Hygienically perfect design: disassembly without tools and dishwasher-safe Ceraclean® attachment parts as well as large distance between blade and motor tower for ease of cleaning
- 40° angled blade and carriage inclination of optionally 18° or 25°
- Closed machine surface without corners and edges
- Targeted transport of juices from meat and the sliced products
- The innovative blade cover is easily and simply mounted by means of an intelligent quick lock system
- Integrated comfort package such as servo-supported manual slicing (standard)
- Emotion®: Motor control for load-dependant energy consumption
- Numerous carriage versions are available.

GSP HD with integrated portion scale

Options

- Version with integrated portion scale up to 3kg/2g with touchscreen for weight display and control
- Ceraclean® surface refinement
- Blade options: Ceraclean® blade, cheese blade (channeled), bread blade
- Blade cover
- Numerous carriage versions
- Product guiding
- Blade changing device
- Installation (rubber feet, lifting device)
- Technology package: Illumination, safety package

Illumination

My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
