## iL Special 3000U/MP

***Load receptor iL Special 3000U/MP is the right solution for you if you want to weigh pallets at flexible locations. Combined with a pallet truck filling becomes easy and saves time. Whether in hazardous areas or in a harsh environment: Benefit from efficient and safe work processes.***

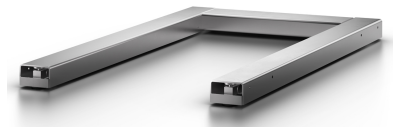

**More information**  
High performance  
with a wide range of  
solutions and options.

### Product description

The verifiable load receptor iL Special 3000U/MP offers you a broad spectrum of weighing ranges: With its compact and practical U-shaped design it weighs pallets ranging from 600 kg to 3.000 kg – also as dual interval.

Combined with an iS terminal the system reliably fulfills the functions weighing, counting or filling. Specifically for filling systems we are offering you a model with wider dimensions.

Benefit with iL Special 3000/MP from time-saving processes, e.g. easy filling. The version with conveying unit allows mobile applications such as via pallet truck – back-friendly and without major physical effort. A battery pack makes you independent in terms of power supply.

iL Special 3000U/MP

### Highlights

- Ideally suitable for heavy products of up to 3,000 kg
- IP67 protection, suitable for harsh and wet industrial environments
- Need-based models:
  - Special version for filling systems
  - Variants for Ex zones 2/22 and 1/21
  - Painted steel version or entirely made of stainless steel
- Mobile applications:
  - Conveying unit for a fast and easy change of location by means of a pallet truck, back-friendly without lifting, bending down and pulling
  - Mains-independent operation via battery pack
- Flexible space-saving weighing terminal for good work processes
- Easy cleaning

iL Special 3000U/MP filling version

### Options

- Stainless steel version
- Conveyor unit
- Wider load receptor
- Floor stand
- Variants for Ex zones 2/22 and 1/21

### My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
