Data Sheet
CWDmaxx

BIZERBA

Our strong entry model of the checkweighers ... the CWD maxx handles up to 250 packages per minute. With an IP54 protection it is the first choice for all dry applications of prepacked products.

More information
High performance with a wide range of solutions and options.

Product description

Dynamic checkweigher CWD maxx is highly efficient, automated and the most cost-effective solution for 100% weight control. Individual configuration options allow tailor-made solutions for many applications. CWD maxx is perfectly suitable for FPV checking of prepacked products, exact control for statistical evaluations, completeness check, classification and for tendency control for automated filling processes. All our checkweighers stand out due to user-friendly operation via color display, alphanumeric keyboard and efficient data management.

Highlights

– Maximum throughput of 188 to 250 packages per minute
– Weighing ranges from 10 g to 3,000 g
– Available in combination with a metal detector
– IP54 protection
– 12" color touchscreen
– Stainless steel version 1.4301
– Memory for up to 100,000 items
– Individual design of display, operating elements and processes
