## iL Special 1000O/MP

**BIZERBA**

*The overhead track scale iL Special 1000O/MP is marked by a robust, solid and easy-to service construction and is designed for universal installation in all common overhead track systems.*

**More information**  
High performance  
with a wide range of  
solutions and options.

### Product description

The overhead track scale iL Special 1000O/MP ensures optimal weight recording and monitoring. With a load capacity of 1,000 kg the iL Special 1000O/MP covers a weighing range from 150 kg to 1,000 kg. Particularly noticeable is the robust and easy-to-service construction of the iL Special 1000O/MP which can be easily integrated in all standardized overhead track systems. Within the overhead track system, the weighing rail height can be variably and infinitely adjusted by means of threaded rods. The overhead track scale is available either with a tubular rail or slotted tube.

### Highlights

- For universal installation into all common overhead track systems
- Robust, solid, and service-friendly construction
- Perfect weight recording/monitoring of item to be weighed
- Up to 300 weighings per hour
- 2 stainless steel strain gauge load cells
- Infinitely adjustable weighing rail height
- All functional parts made of stainless steel

### Options

- Accessories
- Special version up to 1,500 kg for iL Special 1000O/MP
- Tubular rail, slotted tube
