High performance
with a wide range of
solutions and options.

Product description

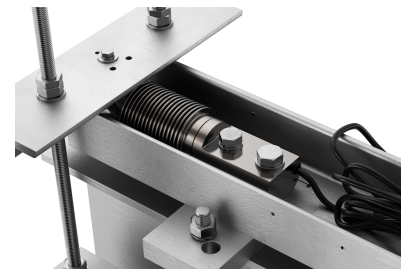

The overhead track scale iL Special 1000OR/MP ensures optimal weight recording and monitoring. With a load capacity of 1,000 kg the iL Special 1000OR/MP covers a weighing range from 150 kg to 1,000 kg. Particularly noticeable is the robust and easy-to-service construction of the iL Special 1000OR/MP which can be easily integrated in all standardized overhead track systems. Within the overhead track system, the weighing rail height can be variably and infinitely adjusted by means of threaded rods. The overhead track scale is available as a roller hook version.

Highlights

- For universal installation into all common overhead track systems
- Robust, solid, and service-friendly construction
- Perfect weight recording/monitoring of item to be weighed
- Up to 300 weighings per hour
- 2 stainless steel strain gauge load cells
- Infinitely adjustable weighing rail height
- All functional parts made of stainless steel
