

Data Sheet

iL Special 40000L/MP

BIZERBA

The load corners stand out due to their robust, reliable and low-height construction. They are slow to wear and tear and require little maintenance, even under extreme operating and ambient conditions.

High performance
with a wide range of
solutions and options.

Product description

The easy-to-install, verifiable and robust load corners require little maintenance and have minimal wear and tear. They are particularly suitable to support customer provided load frames (containers, roller conveyors, platforms etc.) ideally for 3 or 4-point mountings.

Highlights

- Minimal travel thus ensuring almost no wear of function elements
- All functional and fixture components made of stainless steel
- Load corners with load cells in Ex ib version for Ex zone 1

iL Special 40000L/MP

Options

- Load corners with integrated stay rod
- Load corners with load cells in Ex ib version

My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
