Data Sheet
iS65

BIZERBA

The powerful industrial PC iS65 is designed for continuous operation in demanding industrial environments. It reliably supports you in terms of machine control or as an operating unit in intralogistics.

More information
High performance with a wide range of solutions and options.

Product description

Outstanding design, 15.6" touch screen and integrated, powerful Intel Atom CPU: This fanless, for harsh production environments designed, industrial PC iS65 is ideally suitable as an information, control or data entry terminal. Order status, machine run time or throughput information can be quickly retrieved with this device. Install your BRAIN2 client software and integrate up to two scales via standardized USB ports - no need for an external power supply thanks to USB Power Delivery. iS65 - the intelligent interface to your applications.

iS65 G3 table/wall-mounted version

iS65 G3 with WM-T and load receptor

Highlights

– 15.6" touchscreen with a resolution of 1366 x 768 pixels
– IP65 all-round protection against dust and moisture
– Optimal network coverage via external WLAN antenna 802.11
– Ideal for Client applications due to 8 GB DDR 3 RAM
– 128 GB SSD data carrier for fast system start and quick working
– Comfortable industrial PC for the operation of machines and systems
– 2 times Ethernet (10/100/1000MBit) RJ45 interfaces
– 1x RS232 interface
– 4 x USB 3.0
– Optimal mounting to machines and systems due to VESA 75 standard

Options

– Table stand or wall mounting made of stable stainless steel, adjustable inclination angle
– Column for optimal use on production lines
– Integration and power supply of up to two scales via USB (USB Power Delivery)

My Bizerba

We offer you solutions from a single source which can be customized and allow you to respond to any change in a flexible manner. Benefit from costs which can be planned and efficient processes. We are happy to advise you.
