BIZERBA

This full-fledged industrial PC is ideally suitable to be used in harsh ambient conditions. The robust multi-touchscreen in stainless steel design provides safe operating convenience in HD quality. The network-capable high-end solution is also impressive in terms of its multi-function: You can reliably control, count and check your production and record data.

More information
High performance with a wide range of solutions and options.

Product description

Benefit from a network-capable solution which was specifically designed for harsh production environments. Besides the high ingress protection ratings IP65 and IP69 this modern industrial PC comes with a scratch-resistant touchscreen. An anti-shatter film laminated onto the surface makes it possible. Resistant to chemicals and easy to clean. With industrial software BRAIN2 Formulation and _counting.BRAIN this industrial PC offers numerous applications for a synchronous work and data flow. The touchscreen optimized Bizerba apps are easy to operate and offer you all benefits of a complete system: You can quickly and reliably control, count and check your production and record data. Even formulating is possible with the iS75. For efficient maintenance work the device can be opened without major effort via a service shaft at the back.

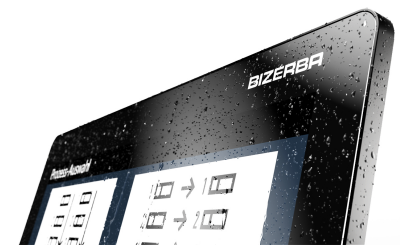

iS75

Highlights

– Large 21.5" display with projective capacitive touch (PCT)
– Full HD resolution: 1,920 x 1,080 pixels
– User-friendly TFT display with LED backlighting
– High scratch resistance of the film: Pencil hardness test >= H
– Anti-shatter film on entire surface
– Processor of the latest generation: Intel® CoreTM i5 6300U
– 4 GB DDR3L SO-DIMM RAM
– 128 GB CFast flash memory
– Numerous interface options: Ethernet 10/100/1000 Mbit, serial and USB interface
– Broad application spectrum: Formulating, dosing and batching with high process reliability
– Automated and optimized counting processes

iS75 with BRAIN2 Formulation

Options

– RFID reader
– Individual mounting: Desk, wall, ceiling, stand
– Formulating, dosing and batching using Bizerba industrial software BRAIN2 Formulation
– Counting with Bizerba industrial software _counting.BRAIN
– RAM memory expansion to 2x4 GB
