Data Sheet
SC II 200

BIZERBA

The System Class brings together all the necessary features for efficient performance. Its model versions allow many solutions which are characterized by their attributes: technically sophisticated, suitable for a broad weight range and easy to operate.

Product description

The Bizerba System Class family is impressive in terms of its broad range of applications. Due to its various model versions it can be used for all retail tasks: weighing, transactions, printing and labeling. The SC II models can be operated and cleaned easily. Furthermore, they save energy – but not at the expense of performance.

The counter top scale SC II 200 with stand is ideally suitable for assisted sales and price labeling. The customer display on a stand provides an attractive added value – information can be seen at a comfortable height. Combined with a cash register drawer it can be used at the same time as a high-performance checkout solution.

SC II 200 operator side
